Drought: Strategies to Ensure Adequate Water Resources for Future Generations

Geological Society of America And
Congessional Hazards Caucus
Program

- Dr. Stephen G. Wells – *Drought and Humanity: A National and Global challenge for Improving the Prediction, Planning, and Management of Water Scarcity*
- Dr. Donald Wilhite – *Drought: Moving from Crisis to Risk Management*
- Ms. Hope Mizzell – *Drought Impacts and Vulnerability in South Carolina*
Hazards Caucus Alliance

- Informal network of 60 organizations concerned about reducing the risk of hazards, supports the Caucus and invites your participation in future Caucus events.

- Information: www.hazardscaucus.org

- Additional materials about the Caucus and drought on the table outside.
