

# Drought: Strategies to Ensure Adequate Water Resources for Future Generations

Geological Society of America

And

Congressional Hazards Caucus

# Program

- Dr. Stephen G. Wells – *Drought and Humanity: A National and Global challenge for Improving the Prediction, Planning, and Management of Water Scarcity*
- Dr. Donald Wilhite – *Drought: Moving from Crisis to Risk Management*
- Ms. Hope Mizzell – *Drought Impacts and Vulnerability in South Carolina*

# Hazards Caucus Alliance

- Informal network of 60 organizations concerned about reducing the risk of hazards, supports the Caucus and invites your participation in future Caucus events.
- Information: [www.hazardscaucus.org](http://www.hazardscaucus.org)
- Additional materials about the Caucus and drought on the table outside.
